Subject: Would you please send me a couple of sentences on meeting with WV? - Status of West Virginia Ethylene Oxide (EtO) modeling analysis

Hi Diana,

Here are some talking points for you. Please, let me know if you have questions or need more.

Status of West Virginia Ethylene Oxide (EtO) modeling analysis

- The 2014 National Air Toxics Assessment identified 2 high risk EtO facilities (Union Carbide, South Charleston and Union Carbide, Institute)
- West Virginia (WV) requested Region 3 (R3) to conduct new risk exposure modeling using local meteorological and facility-based data, believing that local data might show lower risk for nearby communities.
- R3 has tentatively completed new risk exposure modeling and plan to confer with the WV modeling contact on the preliminary results on Monday 4/26.
- A meeting with WV Air Director, Laura Crowder, is scheduled for Thursday, 4/29 to discuss next steps.

- **Ex. 5 Deliberative Process (DP)**

- R3 and WV will need to discuss how we can support this community monitoring effort.

Thanks, Cristina

Cristina Fernandez, Director

Hi Cristina,

I'd like to report out on the Administrator's meeting at 2:00 that you're holding this meeting on EtO with WV to prepare for engaging further with the community. I only need a few sentences (3 to 5). Thanks so much!

Diana
